

لطفاً پوستر بر اساس تمپلت قرار داده شده در سایت تهیه و از طریق پتل کاربری ارسال گردد. تا ۲ پوستر با مبلغ ثبت نام قابل ارائه و دریافت گواهی است. به ازای هر پوستر اضافه مبلغ ۵۰ هزار تومان دریافت میشود. با سپاس از همراهی اساتید و دانشجویان گرامی

Abstract ID	Title	Name
005	Molecular surveillance and antimicrobial resistance profile of bacterial contamination in pastries of Iranian confectioneries: A public health concern	Davood Azadi
011	Antimicrobial and antitoxin effect of fatty acids extracted from yeast <i>Yarrowia lipolytica</i>	Mohaddeseh Larypoor
019	A0A0H3GSW2 as a potential novel virulence protein in <i>Klebsiella pneumoniae</i> : An in silico analysis	Reyhaneh Nouraei
023	Detecting of the ESKAPE bacteria among different clinical specimens in Tabriz, Iran	Nafiseh Abdollahi
024	Impact of <i>Helicobacter Pylori</i> -Derived Outer Membrane Vesicles on Inflammation, Immune Responses, and Tumor Cell Migration in Breast Cancer Through the Snail/B-Catenin Pathway	SeyedehShadi Vaziri
029	Probiotic Use in Stress Management and Its Effects on Mental Health: A systematic review	Hedieh Molaei
030	The Role of Resveratrol in Preventing Fetal Damage Induced <i>Escherichia Coli</i> Lipopolysaccharide in Rat	Aref Delkhosh
031	Effect of cytotoxicity of probiotic bacteria isolated from bee honey stomach on HT29 clone cancer cell line and analyzing the expression of apoptotic genes Bcl2, BAX and P53	Elham Siasi torbati
032	Isolation and identification of the anti-diabetic effects of probiotic bacteria effective in reducing blood sugar from the stomach of worker bees	Elham Siasi torbati
035	Investigating Bacterial Vaginal Discharge Etiology in Pregnant Women by Microscopic Examination and PCR	Bahare Ghanbari
037	Antibiotic Resistance Pattern of <i>Acinetobacter</i> Isolated from Hospitalized Patients at Rasoul Akram Hospital, Tehran Province, 2024	Mahboobeh Nazarpoor
039	The Effects of Oral Probiotics supplementation on glycemic control and lipid profile in Type 2 Diabetes Mellitus (T2DM): systematic literature review	Amirhasan Farzaneh
043	Occurrence of abortion caused by <i>Listeria monocytogenes</i> and identification of associated risk factors in dairy cattle	Mona Hamed
044	A report of septicemia caused by <i>Capnocytophaga</i> spp in dog	Mona Hamed
045	Frequency of toxin -antitoxin genes in <i>Escherichia coli</i> strains producing extended-spectrum beta-lactamases isolated from blood cultures of patients with leukemia	Mahdane Roshani
046	The Efficacy of Probiotics in Managing Peri-Implant Diseases: A Systematic Review	Abolfazl Azimi
047	Predictive Modeling of Infection Risks Based on Water Quality and Microbial Sensor Data	Ghazal Gotalizadeh
048	Exploring the Potential of <i>Bacteroides Thetaiotaomicron</i> in Modulating the Immune Response in Chronic Myeloid Leukemia	Hamidreza Golian
049	Design of a hybrid antibody in the form of a double chain fragment antibody (scFv) to identify the surface protein Factor H binding protein (fHbp) of the bacterium <i>Neisseria meningitidis</i>	MohammadAmin Ghezel
051	Anti-virulence effect of photoactivated flavonoid glycosides via diode laser emitting light against <i>Acinetobacter baumannii</i>	Maryam Pourhajibagher
056	Revolutionizing Clinical Microbiology: Deep Learning Algorithms for Bacterial Infection Diagnosis	Ali Sadighi Malkkian

058	Revolutionizing Clinical Microbiology: a systematic review of Machine Learning Algorithms for Bacterial Infection Diagnosis	Zahra Aga Mohammadpour
081	Investigation of Acinetobacter isolates from a referral hospital in Iran for resistance to colistin antibiotic	Sara Minaeian
082	Evaluation of colistin resistance in Klebsiella isolates from wards of a referral hospital in Iran	Sara Minaeian
089	Isolation and identification of Lactobacillus. plantarum with probiotics properties from Iranian sour fruits	Maryam Koupaei
100	Assessing Adherence to CLSI Guidelines in Iranian Research on Escherichia coli Antimicrobial Susceptibility Testing	Neda Baseri
101	Investigation of the level of resistance to colistin, fosfomycin and azithromycin in clinical isolates of Shigella that produce carbapenemase and ESBL	Shahrazad Aliniay Sharafshadehi
103	Genotyping SARS-CoV-2 and Assessing Aerobic Bacterial Infections in Patients Admitted to Isfahan's Educational Hospitals	Saeed Javdan
104	Epidemiological and Microbiological Characteristics of Osteomyelitis: Insights from a Cross-Sectional Study in Kermanshah, Iran	Zeinab Mohseni Afshar
105	Epidemiological investigation and drug sensitivity of non-tuberculous mycobacterium species in Kermanshah, Iran, in 2022	Zeinab Mohseni Afshar
106	Bacterial isolates from Diabetic Foot Ulcers and their antibiotic susceptibility pattern from selected hospitals in Isfahan, Iran	Saeed Ahmadi majd
107	The efficacy of two triple therapy regimens and one quadruple regimen in eradicating Helicobacter pylori in patients with peptic ulcer: a randomized clinical trial.	Alireza Ebrahimi
109	Antibacterial properties of Shirazi thyme (Zataria multiflora) essential oils on Staphylococcus aureus and MDR Staphylococcus aureus harboring mec A gene	Zahra Dargahi
111	Investigating the Antimicrobial and Anti-Biofilm Effects of Carvacrol on MDR Strains of Stenotrophomonas maltophilia.	Mohammad Jabari
113	A comparative study on the synergistic effects of thymol/ceftazidime against Escherichia coli and Klebsiella pneumoniae	Arman Taran
114	A comparative study on the synergistic effects of thymol/ceftazidime against Escherichia coli and Acinetobacter baumannii	Arman Taran
115	Comparative investigation of synergistic effects of thymol/cefotaxime on Escherichia coli and Klebsiella pneumoniae	Arman Taran
116	Comparative investigation of synergistic effects of thymol/cefotaxime on Escherichia coli and Acinetobacter baumannii	Arman Taran
117	Identification of novel multi-epitope vaccine and novel drug targets against Stenotrophomonas maltophilia as a multidrug-resistant superbug	Safoura Moradkasani
118	Recombinant GroEL Protein from Francisella tularensis: A Promising Candidate for Enhanced Tularemia Diagnosis	Fatemeh Navab Moghadam
119	Epidemiology of Francisella tularensis in the countries of the WHO Eastern Mediterranean Region (EMRO): A systematic review and meta-analysis	Safoura Moradkasani
120	Synthesis of Carbon dots from Probiotic Bacteria	Leila Shamkhali
122	Investigation of the Inhibitory Effect of Quercetin-Loaded Nanoliposomes on the Growth of Methicillin-Resistant Staphylococcus aureus	Omid Mangene Noraei
124	Characterization of integron classes in metallo- β -lactamase-producing Acinetobacter baumannii isolated from patients in Kermanshah, west of Iran	Mobina Niknian

125	Evaluating the impact of <i>Lactobacillus plantarum</i> culture supernatant in reducing the expression of blaNDM and blaOxa48 genes in carbapenem-resistant, biofilm-forming <i>Escherichia coli</i> isolates.	Sana Kamali
127	Identification of <i>Escherichia fergusonii</i> in broiler meat, North Khorasan Province, Iran	Mohsen Seyedabadi
128	<i>Borrelia theileri</i> infections in <i>Rhipicephalus annulatus</i> ticks from the north of Iran	Mahnaz Milani
129	Molecular Diversity and Antibiotic Resistance Patterns of <i>Brucella</i> Strains Using Molecular Genotyping in Khomein, Iran	Mohammad Reza Mohammadi
130	Prevalence of Antibiotic Resistance in <i>Escherichia coli</i> Isolated from Environmental and Food Sources: A Systematic Review and Meta-Analysis	Zahra Tahmasebi Ashtiani
134	Optimization of Alpha-Amylase Production Process in Batch Fermentation Using <i>Bacillus licheniformis</i> ATCC14580	Mahsa Chaharmahali
135	Investigation of antibiotic resistance by Extended-spectrum β -lactamase in uropathogenic <i>E. coli</i>	Mohamad Hosein Abasi
136	Identification of selective virulence factor genes in clinical isolates of uropathogenic <i>Escherichia coli</i> in Borujerd city	Danial Ghiasvand
137	Investigating antibiotic resistance patterns, biofilm formation strength, abundance of virulence factors and molecular typing of <i>Klebsiella oxytoca</i> strains isolated from patients hospitalized in Hamada	Parvin Bahmani Nejad
138	Antimicrobial resistance in <i>Vibrio cholerae</i> O1/O139 clinical isolates	Khalil Azizian
139	Tedizolid activity against methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) strains	Khalil Azizian
140	Probiotics and Multiple Sclerosis: Investigating the Impact on Neuroinflammation and Disease Progression	Kimia Kazemzadeh
141	Prevalence of <i>Listeria innocua</i> in meat-based products around the world: a meta-analysis	Mobin Jalilian
142	Purification and Evaluation of Polysaccharide Intercellular Adhesion (PIA) Antigen from <i>Staphylococcus epidermidis</i>	Negin Rahbaran Dadbakhsh
144	Prevalence and Antibiotic Resistance Patterns of Opportunistic Pathogenic Bacteria Causing Hospital Infections in Kurdistan Province, Iran	Mansour Sedighi
145	Fluoroquinolones Resistance in Cystic Fibrosis: A Systematic Review and Meta-Analysis	Mansour Sedighi
146	Investigation of the Effect of Anti-PIA/PNAG Antibodies on Biofilm Formation in <i>Escherichia coli</i>	Yousef Bahrami Soleymanieh
148	Comparative investigation of synergistic effects of thymol/cefotaxime on <i>Klebsiella pneumoniae</i> and <i>Staphylococcus epidermidis</i>	Tarannom Mohammadi
149	Comparative investigation of synergistic effects of thymol/cefotaxime on <i>Staphylococcus epidermidis</i> and <i>Escherichia coli</i>	Mahdieh Hassani
150	Evaluation of different methods for bacterial biofilm assay using the microtiter plate technique: options and limitations	Azam Boskabadi
155	Gut microbiota metabolism of ellagic acid: Urolithins as novel AKR1C1 inhibitors	Hassan Ostadi
156	Targeting AKR1C3 reductase activity with urolithins: Gut microbiota metabolites of ellagitannins	Hassan Ostadi
157	High frequency of Integrins and AcrAB-TolC efflux pump genes in uropathogenic <i>Escherichia coli</i> (UPEC) strains in North of Iran	Masoomesh Sharifi
158	Biosynthesis of Silver Nanoparticles Using <i>Oscillatoria</i> Extract and Evaluation the Anticancer and Antibacterial Activities	Taraneh Ghasemipour
159	Survey on antimicrobial effects of olive oil and extract on pathogenic bacteria using Taguchi methodology	Nazanin Pasandideh kordmahaleh

160	Exosomes as nano-carries for Helicobacter pylori urease delivery and its effects on hepatic stellate cell autophagy pathway	Aria Mohammadi
161	Quinolone resistance and biofilm production capability among uropathogenic Escherichia coli isolates recovered from hospitalized patients'	Reza Khashei
162	Investigating the antibiotic resistance pattern of Klebsiella pneumoniae isolated from the samples of patients admitted to Afshar Hospital in Yazd from the beginning of 1399 to the end of 1402	ZEINAB DEGHANI FIROOZ ABADI
163	Investigation of antibiotic resistance of Escherichia coli isolated from samples of patients admitted to Afshar Hospital in Yazd from the beginning of 1399 to the end of 1402	ZEINAB DEGHANI FIROOZ ABADI
164	Antibacterial effects and the expression of adhesin genes among multidrug-resistant Uropathogenic Escherichia coli following exposure to coumarin and quercetin	Mahdi Nasiri Ghiri
165	A systematic review of the avian antibody (IgY) therapeutic effects on human bacterial infections over the decade	Zahra Esmaeili
166	Comparison of the antibiotic resistance prevalence in Klebsiella pneumoniae over 35 years: A comparative study in a hospital in Mashhad, Iran (1989-2024)	Zahra Esmaeili
168	The Presence of Microbiome in Gastric Cancer: A Systematic Review	Marzieh Bahari Babadi
170	Evaluating the efficacy of egg yolk IgY antibody against Helicobacter pylori in eliminating bacteria and improving clinical symptoms in patients (phase II clinical trial)	Zahra Esmaeili
173	Antibacterial effects and the expression of adhesin genes among multidrug-resistant uropathogenic Escherichia coli following exposure to carvacrol	Mahdi Nasiri Ghiri
174	Antibacterial effects and the expression of adhesin genes among methicillin-resistant staphylococcus aureus following exposure to carvacrol	Amin Nezafat
176	Utilization of the Virulent Strain Clostridium novyi-NT in Cancer Therapy: Potentials, Challenges, and the Future of Novel Treatments	Abolfazl Eslahi
177	The Role of Mycobacterium bovis (BCG) Vaccine in Enhancing Immune Response and Tumor Suppression: A Systematic Review on Therapeutic Applications in Various Cancers	Abolfazl Eslahi
178	Evaluation of the frequency of lactobacillus and Bifidobacterium in obese and normal weight Elderly	Roshanak Sadreddini
180	Comparison effect of Anti-PIA/PNAG antibodies on biofilm formation in Staphylococcus epidermidis and Escherichia coli	Yousef Bahrami Soleymanieh
181	Identification of Helicobacter pylori using various diagnostic approaches: A comparative study	Erfan Azadifar
183	A comparative study on the synergistic effects of thymol/ceftazidime against Escherichia coli and Staphylococcus epidermidis	Mehrsa Karim
184	Investigating the Impact of Alfalfa Root Extract on Streptococcus Mutans, a Primary Contributor to Tooth Decay, in Comparison to Chlorhexidine	Fatemeh Mahmoudpour
185	Antibiotic Resistance of Stenotrophomonas maltophilia in Iran: A Systemic Review	Mohammad Hossein Kazemi
186	Investigation of the prevalence of non-tuberculosis mycobacterium species (NTM) in Iran: A meta-analysis study	Arefeh Babazadeh

188	Impact of Native Iranian Probiotic Mixture on the expression of Tau protein, Memory Impairment and Antioxidant Markers in a Beta-Amyloid-Induced Alzheimer's Rat Model	Zohreh Shadmehr
191	Cassiamin C, Hinokiflavone and Ergocornine as potential Natural compounds to inhibit penicillin binding protein 2a of Methicillin-resistant Staphylococcus aureus using advanced simulation studies	Mohammad Javad Arghavani
196	The effect of probiotics on colorectal cancer: A Systematic review	Armina Khalilzadegan
197	Antibacterial Effect of Rifampicin/Colistin Combination Therapy in Multidrug-Resistant Acinetobacter baumannii	Fahimeh Andarzian
198	Prevalence of Beta-Lactamase Genes in Escherichia coli Isolated from Patients with Renal Failure	Golchin Najafi
200	Comparative Assessment of Bactericidal and Synergistic Effects of Mentha pulegium (Oregano) and Cinnamomum verum (Cinnamon) Essential Oils Against Methicillin-Resistant Staphylococcus aureus (MRSA)	Zahra Jafarzadeh
201	Study of the Effect of Lactobacillus acidophilus, Lactocaseibacillus casei, and Lactobacillus delbrueckii on the Expression of the tir Gene in Intestinal E.Coli Bacteria	Fatemeh Hadavand
202	A comparative study on the synergistic effects of thymol/ceftazidime against Klebsiella pneumoniae and Staphylococcus epidermidis	Faezeh Khanizadeh
204	a systematic review of human oral microbiome dysbiosis associated with oral cancer	Armina Khalilzadegan
206	Antibacterial effects and the expression of adhesin genes among multidrug-resistant Klebsiella oxytoca following exposure to coumarin and quercetin	Saba Moradi koochi
207	Antibacterial and Anti-Biofilm activity of Levofloxacin-Derived Carbon Dots against Carbapenem-Resistant Pseudomonas aeruginosa Isolates	Fatemeh Dolatkhan
208	Investigating the Relationship Between Gut Microbiome, Probiotic Consumption, and Guillain-Barré Syndrome; An Integrative Review	Mohammad Mostaghar
210	Phenotypical and Molecular Identification of Lactobacilli from traditional dairy products distributed in the areas covered by Tehran University of Medical Sciences and determination of their inhibitor	Arefeh Morvaridi
212	ROS Modulation by Probiotic Cell Free Supernatant in Colorectal Cancer	Peyman Qarehgozlou
214	Antibiotic Resistance in E. coli Isolated from Healthcare Facilities in Karaj: Importance of Nitrofurantoin	Sama Marzban
215	Applications and Challenges of Phage Therapy in Treating Antibiotic-Resistant Bacterial Infections: A Systematic Review	Amin Afsahi
216	A Systematic Review on Reverse-Zoonosis: Global Impact and Changes in Transmission Patterns	Ayhan Jabbari
222	Evaluation of anticancer effects of postbiotics derived from Enterococcus faecium strain KCH-1 on HT29 colon cancer cell line	Negar Shafiei
223	A Review of Antibacterial Effects of Thyme Essential Oil Against Streptococcus mutans Based on Iranian Studies	Yeganeh Ghafarli
228	Association between Colorectal Cancer and the abundance of Fusobacterium nucleatum and Bacteroides fragilis: A Systematic Review and Meta-Analysis	Sogand Ghasemi
229	Prevalence of CRISPR-Cas system genes in Klebsiella pneumoniae isolates collected from clinical samples in Ahvaz	Effat Abbasi Montazeri

230	Identification of isolated Mycobacterium spp. recovered from clinical specimens of referring patients to Kosar Hospital during 2017-2023 using the multiplex-PCR technique in Semnan	Tahereh Alipour
231	Prevalence of Ureaplasma urealyticum in Infertile men comparison with control group	Zahra Mottaghiyan
232	Prevalence of Ureaplasma urealyticum in women for IVF program and comparison with control Group	Zahra Mottaghiyan
233	Prevalence of Mycoplasma hominis and Ureaplasma urealyticum in infertile women comparison with their husbands	Zahra Mottaghiyan
234	Determining the frequency of carbapenem-resistant genes in Klebsiella pneumoniae strains and investigating of their genetic relationship by the MLVA method in Mashhad.	Alireza Mohammadyari
235	Identification of aminoglycoside resistance genes in Pseudomonas aeruginosa isolates isolated from patients referred to Mashhad hospitals	Alireza Mohammadyari
236	The Antimicrobial Activity of Propolis Extract on Klebsiella pneumoniae and Escherichia coli strains isolated from Qazvin hospital personnel	Niloofer Kiaheyrafi
237	Investigation of frequency and multidrug resistance of enterotoxigenic Escherichia coli pathotypes isolated from patients with diarrhea in Ahwaz city	Maryam Afzali
238	Determining the frequency of virulence factor in Shigella species isolated from shigellosis patients in Mashhad.	Maryam Afzali
239	Microbial Biomarkers in Colorectal Cancer: Evaluating the Role of Fusobacterium nucleatum and Lactobacillus spp.	Roghayeh Afifirad
240	Efficacy of Melatonin as an Adjunctive Therapy in Helicobacter pylori Infections: A Systematic Review	Reza Mohammadpour Fard
241	A comparative study on the synergistic effects of thymol/cefotaxime against Staphylococcus epidermidis and Acinetobacter baumannii	Zahra Momeni nasab
245	Production of diagnostic platforms with high throughput capable of detecting aquatic pathogens	Yosof TARVERDIZADEH
246	Investigating the Relationship Between Gut Microbiome, Probiotic Consumption, and Sexual Health: An Integrative Review	Reza Validost
247	Molecular characterization of Staphylococcus aureus isolated from hospital-acquired infections in Ilam, Iran	Marzieh Hashemian
248	Effects of Lactobacillus fermentum FH5 and capecitabine on colon cancer management and related antioxidant enzymes expression in BALB/c models	Shabnam Zeighamy
249	Biofilm establishment, biofilm persister cell formation, and relative gene expression analysis of type II toxin-antitoxin system in Klebsiella pneumoniae	Negar Narimisa
250	Combination of Antibiotics—Nisin Reduces the Formation of Persister Cell in Listeria monocytogenes	Negar Narimisa
251	Prevalence of antibiotic resistance in clinical isolates of Mycobacterium kansasii: a systematic review and meta-analysis	Negar Narimisa
252	An Investigation into the Antibacterial Properties and Cytotoxicity of Activated Carbon/Zinc Oxide Nanocomposite Synthesized via Green Synthesis Using Date Seed Extract.	Rezvan Sadeghihaghghi
253	Impact of Antibiotic Exposure on Gut Microbiome Diversity and Antimicrobial Resistance in Young Children from Low- and Middle-Income Countries: A Systematic Review and Meta-Analysis	Matin Nasirian

254	Phage therapy as a novel therapeutic approach for <i>Pseudomonas aeruginosa</i> clinical infection: A systematic review	Arezo Dehghan
255	The Gut Microbiome as a Key Modulator of Immunotherapy and Chemotherapy Response in Colorectal Cancer: A systematic review	Shekoufeh Roudashti
258	The Role of Artificial Intelligence in Transforming Healthcare: From Prevention to Treatment of Infectious Diseases	Pouya Rahimi Zarei
260	Studying the effect of zinc tungstate and Cerium-doped zinc tungstate nanomaterials on structural properties and antibacterial properties	Sadegh Azadmehr
261	Characterization of CagA EPIYA Motifs in <i>Helicobacter pylori</i> Strains from Patients with Digestive Disorders	Ali ALNaqeeb
262	Investigating the prevalence rate and antibiotic resistance pattern of microorganisms isolated from patients admitted to Seyyed al-Shohda Heart Hospital in Urmia between August 1402 and December 1403	Hosein Maghsoudi
264	In vitro assessment of synergetic activity of engineered <i>Lactobacillus plantarum</i> produced nisin with fusaric acid and thymoquinone against <i>S. aureus</i> , <i>C. innocuum</i> and <i>R. gnavus</i>	Marziyeh Haji Shah
265	Multidrug Resistance and Virulence Gene Profiling of <i>Klebsiella pneumoniae</i> Isolates in ICUs: Insights into Biofilm Formation and Efflux Pump Mechanisms	Mohammad Karimbakhsh
266	Investigation of the inhibitory and therapeutic effect of IgY antibody against inactivated <i>Helicobacter pylori</i> in AGS cell line and C57BL/6 mice	Zahra Esmaeili
267	Identification of antibiotic-resistant clinical isolates of <i>Escherichia coli</i> based on the Uropathogenic Specific Protein (USP) gene	Esmail Ghorbanalinezhad
268	Carcasses of slaughtered goats in Kerman: A potential reservoir of β -lactam-resistant <i>Escherichia coli</i> and a public health challenge	Saideh Afrisham
269	Production of IgY antibodies against <i>Helicobacter pylori</i> and determination of its stability in environmental conditions and interaction with <i>Salmonella</i> and <i>Escherichia coli</i>	Zahra Esmaeili
270	The Role of Influenza Vaccination in Reducing Viral Shedding: Implications for Zoonotic Disease Control and Public Health"	Saideh Afrisham
271	Novel methods for bloodstream infection <i>Staphylococcus aureus</i> treatment	Reyhaneh Majidi
273	Determination of <i>Acinetobacter baumannii</i> resistance pattern in identified isolates	Saba Soufi
277	Enhancing Antibiofilm Efficacy of Lysostaphin Against <i>Staphylococcus aureus</i> Wound Infections Using Niosomal Delivery Systems	Hadis Sadri
278	Computational-based Identification of Novel Inhibitors targeting DNA Gyrase Subunit B in <i>Staphylococcus aureus</i>	Erfan Aghajani
279	Identification of a Promising Ligand for Inhibiting Carbapenem-Hydrolyzing KPC Enzyme in Carbapenem-Resistant <i>Klebsiella pneumoniae</i> ; Molecular Docking Investigation	Sahar Karamlou
280	Design and construction of the triple recombinant protein and its immunogenic evaluation against bacteria that cause diphtheria, tetanus and pertussis in animal model	Zahra Salahi
281	Examining the sequence of <i>parC</i> and <i>gyrA</i> genes in gene databases and determining the variable region and determining the sequence in clinical isolates infected with <i>Klebsiella pneumoniae</i>	Maryam Sadeghi Manesh

282	Investigation of antimicrobial resistance profile and carbapenemase producing <i>Klebsiella pneumoniae</i> isolated from hospital wastewater in Shiraz, Iran: 2024-25	Mohammad Hassan Parvizi Mashhadi
283	Prevalence of integron classes 1, 2 and 3 among multi-drug resistant <i>Klebsiella pneumoniae</i> isolated from hospital wastewater in Shiraz, Iran: 2024-25	Mohammad Hassan Parvizi Mashhadi
285	Investigation of integrons and ESBL genes In <i>Shigella flexneri</i> isolates from children with diarrhea in Shiraz, southwest Iran	Mohammad Hassan Parvizi Mashhadi
286	Targeting <i>Neisseria gonorrhoeae</i> with <i>Enterococcus faecium</i> : Exploring Its Inhibitory Potential	Hossein Zafari
287	Molecular Docking Study of Equilenin and Its Analogues as <i>Pseudomonas aeruginosa</i> : A Novel Therapeutic Strategy	Kosar Feyzbakhsh
288	Impact of <i>Bifidobacterium</i> Populations on Human Health and Fitness Parameters	Amirmohammad Farei
289	A comparative study on the synergistic effects of thymol/ceftazidime against <i>Staphylococcus epidermidis</i> and <i>Acinetobacter baumannii</i>	Arefeh Saberifar
290	Evaluation of the potential effects of <i>Lactobacillus crispatus</i> on antitumor immune responses in breast tumor	Samad Farashi Bonab
291	Evaluation of Antibiotic Resistance Patterns in Patients Visiting Niloo Private Laboratory for Medical Diagnosis and Pathology in Shiraz	Sherafat Ebrahimi
292	Bioinformatics study of <i>Campylobacter jejuni</i> virulence Factors: Designing Multi-Epitope-based Vaccine	Esmail Behmard
295	Microbial Profile and Prevalence of Bacterial Pathogens in Urinary tract Infections: A Study of Urine Samples from Patients	Elham Rezaei Niaraki
296	Investigation of the role of <i>Escherichia coli</i> strains in the development and progression of colorectal cancer	Samad Farashi Bonab
297	Anticancer Peptides: Development, Mechanisms, and Challenges in Targeted Cancer Therapy	Hourie Tajiki
298	Antibiotic Resistance in <i>Pseudomonas aeruginosa</i> and Its Implications for UTI Treatment	Erfaneh Jafari
300	Computational design of a multi-epitope vaccine candidate targeting <i>Shigella dysenteriae</i>	Esmail Behmard
301	Illustration of inflammatory mechanisms of <i>Bacteroides fragilis</i> and its contribution to colorectal carcinogenesis	Motahareh Taghizadeh
302	In silico design of a multi-epitope vaccine candidate targeting <i>Listeria monocytogenes</i>	Esmail Behmard
307	The Effect of Cardiovascular Drugs on the Transfer of Carbapenem Resistance Genes from <i>Klebsiella pneumoniae</i> to <i>Acinetobacter baumannii</i>	Sepideh Nikrou
308	Computational Analysis of a Rationally Designed IleRS Inhibitor, Isoleucine tRNA Synthetase, as a Promising Therapeutic Agent against <i>Staphylococcus aureus</i>	Amir mohammad Akbarian Khujin
309	Discovery of effective inhibitors targeting the protein kinase B (PknB) from <i>Mycobacterium tuberculosis</i> via Molecular Docking	Mahshid Gholizadeh
312	Investigation of Potent Inhibitors to Control <i>Acinetobacter baumannii</i> by Targeting Its Outer membrane protein A (OmpA) using Molecular docking	Sara Hafezosehe
313	Investigating the Occurrence of COVID-19 Among Individuals with Tuberculosis History in Mazandaran University of Medical Sciences During the Initial and Subsequent Peaks of the Pandemic	Hadis Tolomehr
317	CmaA3 as a Therapeutic Target for <i>Mycobacterium tuberculosis</i> : A Computational Investigation	Zahra Golshahi

318	Elucidating the Role of <i>Fusobacterium nucleatum</i> in Colorectal Cancer: Implications for Tumour Proliferation and Chemoresistance Mechanisms	Zahra Rahimifar
320	Frequency of Dermatological Manifestations in Leptospirosis Patients: A Case Study from Razi Hospital, Qaemshahr, 2017-2023	Mohsen Kheiri
321	Investigation of Potent Inhibitors to Control <i>Bacillus anthracis</i> by Targeting Its Anthrax Toxin: A Molecular Docking Study	Melika Sadat Samadi
324	Investigating the NMDA neurotransmitter receptor in the hippocampal tissue of Alzheimer's rat model treated with native Iranian probiotics and Naranjanin.	Mahdi Hossein zadeh fomani
325	Dihydropteroate Synthase (DHPS) as a Therapeutic Target for <i>Klebsiella pneumoniae</i> : A Molecular Docking Investigation	HANNANEH DAMAVANDINIA
326	Detection of mazEF toxin-antitoxin system in clinical isolates of methicillin-resistant <i>Staphylococcus aureus</i> by molecular PCR method	Esmail Ghorbanalinezhad
328	Identification of clinical isolates of methicillin-resistant <i>Staphylococcus aureus</i> based on the Penton-Valentine leukocidin (PVL) gene by PCR	Esmail Ghorbanalinezhad
329	"Evaluation of molecular docking between 8-Pseudomonalisin from <i>Pseudomonas aeruginosa</i> and its inhibitory ligands"	Ghazal Shirdel
330	DHPS Inhibition: A Molecular Docking Approach to Combat <i>Mycobacterium fortuitum</i>	HANNANEH DAMAVANDINIA
331	Exploring the Efficacy of <i>Enterococcus faecium</i> as an Antibacterial Agent Against Resistant Clinical Pathogens	Yeganeh Nemati bahar
332	Arabinosyl transferase C Inhibition: A Molecular Docking Approach to Combat <i>Mycobacterium tuberculosis</i> Infections	Faezeh Mohammadzadeh Habil
333	The survey of Virulence Gene Profiles in <i>Staphylococcus aureus</i> Isolates in Covid-19 Patients Admitted in ICU at Sina Educational Hospital of Hamadan	Somayeh Malekmohamad
334	Computational Design and Screening of Autolysin Inhibitors for <i>Streptococcus pneumoniae</i>	Haniyeh Soleymani
336	Antibacterial activity of Ziziphus Spina- Christi nanoparticle against <i>Enterococcus faecalis</i> biofilm	Fariba Asgharpour
337	Prevalence and Molecular Detection of vly and pho genes and Antibiotic Resistance Pattern of <i>Gardnerella vaginalis</i> in adult Women in Yazd, Iran	Arshia Soltani borchaloe
338	Toxic genes and antibiotic resistance in <i>Vibrio. Parahaemolyticus</i> isolates from caught fish of Caspian Sea	Elahe Yazdan panah
339	Utilization of <i>E. coli</i> (x11-blue) and the ptz57R/T plasmid system for the specific targeting of the H9N2 subtype influenza protein matrix.	Saideh Afrisham
341	Prevalence and molecular mechanisms of colistin resistance in <i>Acinetobacter baumannii</i> clinical isolates in Tehran, Iran	Amin Khoshbayan
342	The Frequency of Verrucomicrobia in intestinal mucus of patients with cancer colorectal	Afsaneh Hajimohammad
343	Effect of 20-ppm ozone and 1% chlorhexidine gels on plaque index and <i>Streptococcus mutans</i> counts in the dental plaque in 6-12-year-old children: A randomized, double-blind clinical trial	Azam Kaseb yazdanparast
344	Investigation of the relationship between serum vitamin D levels and the presence of <i>Mycobacterium avium</i> subspecies paratuberculosis in patients with Hashimoto's thyroiditis	Bitia Zandi

345	Prevalence of <i>Listeria seeligeri</i> in meat-based products around the world: a meta-analysis	Mobin Jalilian
346	Resistance to Imipenem and Meropenem in <i>Klebsiella pneumoniae</i> Isolates In Alborz Province And Prevalence of KPC and VIM	Narges Omidinia
347	Bioinformatics Analysis of Salmonella-Specific Bacteriophage Endolysins as Antibiotic Alternatives	Aryan Ghorbani
348	Phenotypic and Genotypic pattern of Inducible Clindamycin resistance to inducible in <i>Staphylococcus aureus</i> isolated from cockroaches in North of Iran.	Yasin Saberi
349	The effect of tele nursing on the self-efficacy of patients with meningitis	Samaneh Fallah Karimi
351	Probiotic Supplementation of <i>Lactobacillus</i> and <i>Bifidobacterium</i> in the Prevention and Improvement of Human Diseases: Scientific Evaluation and Their Impact on Cancer Treatment	Aghil Bahramian
352	Evaluation of the Efficacy of Ceftazidime-Avibactam in Antibiotic-Resistant <i>Escherichia coli</i> Strains Isolated from Patients with Urinary Tract Infections and Molecular Detection of the Genes <i>qepA</i> , <i>aac</i> (Mahnaz Beyranvand
353	Thermal and UV Stability Assessment of Bacteriophage Isolates Targeting Multidrug-Resistant <i>Acinetobacter Baumannii</i>	Niloufar Batebi
354	A Novel Approach: Harnessing Synergy Between Phage Therapy and Antibiotics to Combat Bacterial Resistance.	Niloufar Batebi
355	Addressing Challenges in Bacterial Resistance to Phage Therapy	Niloufar Batebi
357	Flash chromatographic isolation of potential antibacterial compounds of <i>Prosopis cineraria</i> and evaluation of their anti bacterial activity	Mahdyeh Neghabi Hajiagha
358	Resistance to Antipseudomonal β -Lactams Induced by Imipenem in <i>Pseudomonas aeruginosa</i> clinical isolates	Ghazaleh Elahi
359	Prevalence of <i>Mycobacterium abscessus</i> bacteria in the lungs of patients with cystic fibrosis in the world based on a meta-analysis study	Mobin Jalilian
360	The synergistic antibacterial effects of low concentrations of acetic acid and tetracycline against tetracycline-resistant <i>Pseudomonas aeruginosa</i>	Zahra Zahedifard
